

R E M A R K S

By this Amendment claims 4, 9, and 16 have been revised.

Responsive to the restriction requirement set forth in the Office Action of June 15, 2010, the applicants elect method claims 1-18.

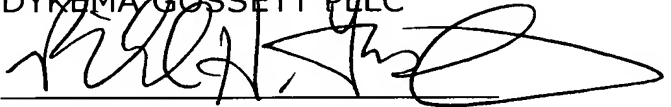

With respect to the specie election requirement, the applicants elect claims 2-18 (claim 1 being generic) which makes sense based on the amendments to claims 4, 9 and 16. With respect to the organic solvent of claim 10, the applicants elect water-based alcohols.

The undersigned thanks the examiner for further explaining his specie election requirement during a telephone call on October 15, 2010.

Respectfully submitted,

DYKEMA GOSSETT PLLC
